

NOTES TO PERFORMERS: JOURNEY OF THE LONE WOLF, SIMON DOBSON

for Brass Band and Percussion

First published 2014 by Faber Music Ltd. Revised edition 2016.

Percussion requirements

The percussion requirements for this work were amended in 2016 at the request of Kapitol Promotions Music Panel, which has selected the work as the test-piece for the **2016 Championship Section** finals of the **National Brass Band Championships, 8 October 2016**.

With the co-operation of the composer, Percussion 3 material has been re-assigned, where possible, to Percussion 1 and Percussion 2, either as a re-write or cue. The reduced Percussion 3 part now becomes an option and is not to be performed on 8 October. Percussion 4 (for tuned instruments) is unchanged.

Performance notes

During the second movement, *Night Music*, Percussion 2 is instructed to play a backing track (manipulated samples of bowed crotales and nature sounds) from a CD player linked to speakers. This is to add atmosphere and a sense of physical space during the flugel horn solo. The CD is provided with the performing material. Minor revisions have also been undertaken to the cornet, horn and baritone parts in the last four bars of the work. Any band that has purchased the 2014 publication should contact Kapitol Promotions Music Panel Secretary, Alan Hope, and alternative material including percussion parts will be supplied by the publisher.

The 2016 revised edition is presented with a new cover image. See below.
