Continuo

On the **organ**, small notes on the *lower* staff are to be played, and those on the upper omitted. On the **piano**, small notes on the *upper* staff are to be played, and those on the lower omitted. Small notes in parentheses may be omitted if they cannot be managed without breaking the chords. All notes which simply double the voices may be omitted at the discretion of the conductor. Thus the original accompaniment, for string orchestra and continuo, may be represented with a minimum of alteration of the sonority and of the voice-leading.
